Motion carried.

Supervisor’s Report/Comment  
Supervisor Connors stated that for this meeting they would not have public input.

Grant Report:  I am very pleased to report that the Town of Stillwater has been informed that we are the recipients of (3) grant awards. Two Grants totaling $4.5 Million Dollars has been awarded in support of the Cold Springs Road Corridor Project; One Grant Totaling $370,300.00 has been awarded in support of the further development of the Multi-Use Recreational Trail.  
This brings to the Town of Stillwater $595,300.00 in grant funds specifically dedicated to the multi-use trail, Phase #2 of the Riverside Veterans Park and Phase #1 of “Boilerhouse” Park.  
We have really worked hard over the past 4 months to bring these funds to our community and I would like to thank the Parks & Recreation Committee, Highway Committee, and the Highway Superintendent and Director of Building, Planning & Development for their personal efforts. In addition our thanks are also extended to The Chazen Companies for their technical assistance with these applications.  
The Office of Fiscal Management is completing the required paperwork for final submission to the NYS Department of Transportation and Empire State Development Corporation.

Community Housing Rehabilitation Program:  I am also pleased to report that the Town will apply for housing rehabilitation assistance with funds from the U.S. Department of HUD.  
Residents living in the Riverside, River Road and Brickyard Road neighborhoods will be asked to complete a Housing & Income Survey form and return the form to my office at Town Hall as soon as possible.  
Common improvements available to residents will be heating system upgrades, electrical system upgrades, roofing, and window and door replacement. Funds will be available for qualified & documented repairs, to low & moderate income families. Survey forms will be mailed to all residents living in the target neighborhoods within the next week.

Association of Towns Annual Training & Meeting:  The 2007 Training School and Annual Meeting of the NYS Association of Towns will be held in New York City from February 18th to 27th.  
Training and Programs required for accreditation will be available for Town Board Members, Building Officials, Planning & Zoning Officials, Town Justices, Fiscal Officers, Assessors, Town Clerks, Town Attorneys and Highway Officials.  
I will be sending to each Member of the Town Board and Department Heads, informational sheets for their consideration.  
As in the past, my office will register those Town Officials and Employees for the conference.  
Transportation arrangements will be the responsibility of the individual.

I would also like to take this opportunity to speak about the exciting projects the Town of Stillwater will be working on in 2007:

Public Works:  The Town of Stillwater will complete the design and begin construction on the largest Public Works Project in Town History.  
The Cold Springs Road Corridor Project, supporting the Luther Forest Technology Campus will build & rebuild Elmore Robinson Road, Cold Springs Road, Fitch & Farley Roads as well as rebuild the Fitch Road, Joyce Road intersection.  
Public Sewer and Storm Water Management systems will also be installed.  
The project, estimated to cost approximately $12 Million Dollars will be administered by the Town
Office of Fiscal Management and supervised by the Town Highway Superintendent. The $4.5 Million Dollar Grant Award previously mentioned is the 1st installment that will be dedicated to the design, 2007 construction and reconstruction of the town roadways.

Brown’s Beach Hotel, Resort & Conference Center: If authorized by the Town Board and Planning Board, this project will break ground in late summer 2007. The project is estimated to cost $85 Million Dollars and will bring a proposed 160 room hotel and conference center to the former Brown’s Beach property. Residents are encouraged to attend the January Business Meeting (1/18) when the Town Board will be given a Special Presentation by the attorney representing the developers for this project.

Saratoga Hills Park (formerly Hillside Mobile Home Park): With over 100 unsafe or unoccupied mobile homes removed, water leaks repaired, adequate fire flow restored to all fire hydrants, private roads with the park resurfaced and a strict set of park rules & regulations strictly enforced by park management, the former Hillside Mobile Home Park will begin this year with an aggressive marketing campaign designed to bring new residents to Stillwater and to the mobile home park.

Revolutionary Heights & White Sulphur Springs Residential Communities: Shortly after January 1st, the White Sulphur Springs Residential Community at the intersection of Luther Road and Route 9P will receive final consideration by the Town Board. It is important to note that for this project 29 single family homes will be constructed consistent with existing or superior zoning than what currently is permitted in this neighborhood. These homes are projected to have a beginning sale price of $750,000.00 and the developer has agreed to the full build-out of the White Sulphur Springs Pocket Park, to town specifications, as part of their Public Benefit Assessment.

If authorized by the Town Board and Planning Board, Revolutionary Heights should break ground by early fall. Residents will remember that this subdivision is the final phase of the former Gurba Estates/Castle Cliff project that began in Stillwater over 30 years ago. Homes in this development are estimated to be offered beginning at $240,000.00 with the Public Benefit Assessment for this project $125,000.00 dedicated to the development and construction of the multi-use trail.

Parks & Recreation: Parks & Recreation in the Town of Stillwater will remain a Number 1 priority. Close to $600,000.00 in grant funds have been dedicated to the development of the trail as well as Phase #2 of the Riverside Veterans Park development and Phase #1 of the former boilerhouse site. And in 2007, residents in the Saratoga Glen Hollow neighborhood will finally see construction of the Town Park in their neighborhood begin.

Stillwater Sanitary Sewer District #2, #3 & #4: Construction is scheduled to begin soon that will bring municipal sewer to neighborhoods in Stillwater currently serviced only by septic systems. The project will also bring existing pumping stations to maximum capacity, end over 12 years of enforcement action against park operators by the State Attorney General, ENCON & Department of Health. This entire project has been conceived and organized at NO COST to Stillwater taxpayers.

Annual Reports: Department Heads, including AHFD, Stillwater Ambulance and Stillwater Community Center representatives are reminded that their 2006 Annual Report will be presented to the Town Board and public at our February Agenda Meeting (2/1).

2006 Vouchers: Department Heads are reminded that all bills for services and/or material must be submitted for payment by voucher no later than January 19th. Vouchers received in the Office of Fiscal Management after that date will be paid with appropriated 2007 funds.

Motion by Councilwoman Ronda and seconded by Councilman Petronis to adopt Resolution #47.

Discussion: Councilwoman Winchell requested to discuss several key points of the Local Law. Among the points were Section 3 relating to first obtaining Town Board approval prior to attending training or conferences. This language needs to be included in the law to insure funding is available. This is consistent with other departments. She also questioned the legality of the Fire Marshall "having the powers of an assistant code enforcement officer", stating without proper credentials, this could be difficult to enforce.

Councilwoman Winchell requested clarification on the section relating to the collection of fees by the department. Stating that if the proper process for reconciling funds is not within the Local Law, then varying processes could be followed and tracking activity and deposits would be difficult. She questioned the role of Acting Director, stating that she has never received documents where the position was utilized since its creation in mid 2006 and wondered if it still exists.

The final item related to record keeping. She stated that the Local Law should detail that monthly reports on building activity should be submitted to the Town Board and made available for the public to view in the Town Clerk's Office. According to the Local Law, the Director will make a single Annual Report and keep all other documents in the department. Councilwoman Winchell stated that consistent with all other Town departments, monthly reports are always available through the Town Clerk and the Building Department should be held to that same standard. She concluded by stating if this Local Law does not include reporting and recording standards that are clear and systemized, she can not support it.

A roll call vote was taken as follows:

 Councilman Baker  No
 Councilman Petronis  Yes
 Councilwoman Ronda  Yes
 Councilwoman Winchell  No
 Supervisor Connors  Yes

Motion carried. Resolution #47 was adopted by a 3 to 2 vote. (Copy attached and made part of the minutes).
